

why get involved with healthy living

- Childhood obesity has increased 300% in the past 30 years.
- The prevalence of obesity among children aged 6 to 11 years increased from 6.5% in 1980 to 19.6% in 2008.
- Sugar adds up to more than 25% of the total daily calories for 11% of the children aged 2-3 and 12% for the 4-5-year-olds.

CFM is dedicated to making the difference through relentless research, innovation and quality healthy product production. It is our goal and passion to see the world grow healthy and strong.
